Self-introduction

I'm 23 years old, have experience working in big IT companies and startup ones. Also, I developed more than 20 of my own projects, a list of them was published on my website - skaretskyi.uk Currently, I am improving my programming skills in the technologies mentioned above by using them in my work and acquiring new ones. **About life shortly:** play football as a hobby, jog a lot, and sometimes attend an MMA course, but most of my free time - learning.
